

4D Printing & Meta Materials Conference

Press Release

4D Printing & Meta Materials Conference, Oct 06, 2015

FOM Institute AMOLF, Amsterdam, The Netherlands

At the edge of new forms of matter - An invitation for the media to discover more on new materials and emerging fields, on Oct 06

The 4D Printing and Meta Materials Conference offers you fresh insights on all aspects of two strongly emerging fields:

1. 4D Printing offers a streamlined path from idea to full functionality.
2. Mechanical metamaterials are structured materials with mechanical properties defined by their structure rather than their composition.

These are highly promising disciplines which develop in a synergistic manner, and which aim at creating entirely new forms of matter, which will lead to applications that have not yet been conceived.

The 4D Printing & Meta Materials Conference will not only cover the academic results but will show how designers and engineers will see future applications and new markets.

Who will be there to present?

The program contains many impressive speakers, including Daniel Dikovsky, **Stratasys**, Ignacio García, **Recreus**, Tristan Mes, **SupraPolix BV**, Prof. Dr. Martin van Hecke, **Leiden Institute of Physics/AMOLF**, Prof. Dr. Dirk J. Broer, Institute for Complex Molecular Systems (ICMS), **Eindhoven University of Technology**, Prof. Dr. Martin Wegener, Institute of Applied Physics, **Karlsruhe Institute of Technology**, Fergal Coulter, **Nottingham Trent University**, Prof. Dr. Ir. Jo Geraedts, **TU Delft**.

Arrangements for the media

The conference organizers welcome enquiries from electronic media and the press. Accredited journalists can attend this conference free of charge. We are happy to help arrange interviews with the speakers.

Please help us to help you. Press accreditation should be arranged in advance of the conference.

To register for a complimentary media pass, contact Esther Wendrich. She can be reached at e.wendrich@jakajima.eu or during European office hours on +31 620008576.

The conference website contains the full program and venue details. More details at <http://www.4dpmmconference.com>.

About Jakajima

Jakajima is the matchmaker for innovators in the high tech industry, ranging from 3D printing to Internet of Things, from Drones to Health Tech. We organize those activities that bring innovators from different value chains and different professions together, in order to endeavour innovations and to create new partnerships, products and/or services.
