

## Press Release

### The 3D Food Printing Conference

April 12, 2016

Villa Flora, Venlo, The Netherlands

### The Future of 3D Food Printing for Professionals and Consumers – International 3D Food Printing Conference in Venlo, The Netherlands

Venlo - On **April 12th, 2016**, the 2nd edition of the **3D Food Printing Conference** will take place at **Villa Flora** in **Venlo, The Netherlands**.

The conference will cover a variety of topics related to 3D food printing such as food components, business models & legal issues, hardware & software developments, applications for elderly and the health care industry, new value chains, safety – f.i. HACCP, food processing & design and custom nutrition.

Internationally renowned speakers from Wageningen University, TNO, University of Nottingham, Black Dog Consulting, 3dchef, Sardegna Ricerche, Print2Taste GmbH, Print Cheese, University of Applied Science in Weihenstephan-Triesdorf and BIOSYST-MeBioS, Katholieke Universiteit Leuven, will share their views and knowledge on the topics of interest.

The presentations will tackle subjects such as “Creating memories through custom foods”, “Cellulose as an edible ingredient for 3D Printing”, “3D printing of filled protein-rich food structures”, “3D Printing for Future Food Security”, “Study and characterization of food matrices intended for 3D printing”, “The added value of farm cheese”, “Towards printing a meat-like structure using sustainable plant proteins”, “The Plug & Play Food Printing System Bocusini”, “3D printing candy with desired texture according to personal dietary requirements using pectin gel”.

Besides the **conference**, the event will include an **exhibition** and **live demonstrations**.
