

Press Release

The 3D Printing Electronics Conference

January 19, 2016

High Tech Campus Eindhoven, The Netherlands

An Invitation for the Media to Find out Why Interest in 3D Printing Electronics Is Growing so Fast

Eindhoven - On January 19th, 2016, the 3D Printing Electronics Conference will take place at High Tech Campus Eindhoven, The Netherlands.

The conference will focus on aspects related to 3D Printing Electronics, including combining functional elements such as electronics (sensors or switches) into a 3D printed product, processes that integrate electronics onto or within 3D printed parts, challenges and future prospects.

This year's conference includes insights from Germany's Nanotech AMT, whose expertise includes moulded Interconnect Devices, high efficiency printed mobile phone antennas, or the creation of heater patterns on materials such as PC for automotive applications. TNO will explain how integrating electronics into loadbearing or protective structures, means "dumb" plastic parts can be made smart. Different techniques like thermoforming and inmold will be explained.

Other presentations include Dr. Shoufeng Yang (University of Southampton), Marcel Grooten (DoMicro BV), Simon Leigh (University of Warwick) and Gaël DEPRES from French startup Arjowiggins Creative Papers.

Besides the presentations, the conference will also include a roundtable discussion on "How will 3D Printing Electronics influence future electronic products".

About Jakajima

Jakajima is the matchmaker for innovators in the high tech industry, ranging from 3D printing to Internet of Things, from Drones to Health Tech. We organize those activities that bring innovators from different value chains and different professions together, in order to endeavour innovations and to create new partnerships, products and/or services.

Arrangements for the media

The conference organizers welcome enquiries from electronic media and the press. Accredited journalists can attend this conference free of charge. We are happy to help arrange interviews with the speakers.

Please help us to help you. Press accreditation should be arranged in advance of the conference.

To register for a complimentary media pass, contact Linda Renkema. She can be reached at l.renkema@jakajima.eu or during European office hours on +31 620008576.
