

PHOTONIC INTEGRATION CONFERENCE

PRESS RELEASE

Photonic Integration Conference, 26 September 2017

High Tech Campus, Eindhoven, The Netherlands

Why big tech companies should watch photonics closely – From current developments in photonics to Star Trek future

Eindhoven – The 3rd edition of the Photonic Integration Conference will take place on September 26, 2017 at High Tech Campus Eindhoven, The Netherlands.

This edition will focus on business models for applying photonic integration, cases of photonic integration in optical sensing, lighting & energy, IT and telecom – current situation and future prospects.

Speakers from AIM Photonics, PhotonDelta, BRIDG – Bridging the Innovation Development Gap, Tyndall National Institute, University of Glasgow, Fiber To The Home COUNCIL EUROPE, Lightwave Logic, LioniX International and CEA-LETI will be there to talk about the topics of interest.

The conference program also includes a session on “Semicon meets Photonics”, hosted by The Business Cluster Semiconductors Netherlands, where you can catch a glimpse into the important role that photonics is expected to play in the future of the semiconductor industry.

For more information about the program, we invite you to visit <https://www.phiconference.com/>

The conference is organised by Jakajima, in partnership with High Tech Campus Eindhoven.

About Jakajima

Jakajima is the matchmaker for innovators in the high tech industry, ranging from 3D printing to Internet of Things, from Drones to Health Tech. We organize those activities that bring innovators from different value chains and different professions together, in order to endeavour innovations and to create new partnerships, products and/or services.
