PRESS RELEASE

Venlo - On June 7, 2018, the 2nd edition of the Cargo Innovation Conference will take place at Maaspoort, Venlo, The Netherlands.

The Conference aims to bring together manufacturers, operators, knowledge institutes, consultants and government organizations active in cargo logistics and transportation to share the status of the latest developments and trends in disruptive technologies (such as 3D printing, Artificial Intelligence, robotics, unmanned) and discuss their impact on logistics and cargo transportation.

The complete program includes 14 speakers from international well-known companies, associations and start-ups, among which we mention ProRail, DITSS, KPMG, ING, RBS, Valenciaport, Xomnia, Accerion, Genzai.

The presentations will focus on topics such as The impact of digitization in container terminals, Logistic Applications of Blockchain, Impact of 3D Printing on import and export rules, High-tech security solution for ports, Artificial Intelligence in Supply Chain, Automated Train Operation for modern railways and many more.

For further information about the conference, we invite you to visit
