

Press Release

3D Medical Printing Conference & Expo 2019

MECC Maastricht

The Netherlands

Maastricht – On January 30 and 31st, 2019, MECC Maastricht will host a two-day event focused on the latest 3D Printing innovations in medicine. The event will include a conference with dedicated sessions to 3D pharma printing, 3D medtech printing, 3D bioprinting, 3D printing applications in surgery and dentistry, lab tours and demo corners and an exhibition.

On **January 30**, the program includes dedicated sessions on **3D Bioprinting** and **3D Dental Printing**. Attendees will find out the current status of designing biomaterials for tissue regeneration, custom-made 3D printed dental implants, smart materials for 3D dental printing, bioprinting of tissues and organs & will understand why 3D printing is a must have for the production of certain dental applications.

The program of this day will also include a MERLN Institute for Technology-Inspired Regenerative Medicine Lab Tour.

On **January 31**, the focus during the 3D Medical Printing Conference will shift towards **3D medtech printing** (orthopaedic implants, surgery models) and **3D pharma printing** (How far are we from 3D printing our medication?). Dedicated sessions to Value-Based Health Care by implementing 3D technologies in regular hospital practices and Use of Surgical guides using 3D Printing / Augmented Reality / Virtual Reality will provide insights into how can this new technology find its place in the current health system.

For instance, Alessandro Ricci from 3DIFIC, Italy, will present a case of a previously non-treatable tumour that was successfully treated using a 3D printed solution. Mohamed Alhnan from King's College London will talk about how 3D printing can be used to personalise medicine dosing so that it is tailored to an individual patient's needs and preferences.

The event is organised by Jakajima and hosted by MECC Maastricht.

About MECC, Maastrichts Exhibition & Congress Centre

MECC Maastricht's product is success. With our flexibility, high level of service and entrepreneurial attitude we offer organisers, participants and visitors to trade fairs, congresses and events maximum success. Several international medical conferences and also TEFAF, world's leading art fair, take place in our modern exhibition and convention centre in the south of the Netherlands.

About Jakajima

Jakajima is the matchmaker for innovators in the high tech industry, ranging from 3D printing to Internet of Things, from Drones to Health Tech. We organize those activities that bring innovators from different value chains and different professions together, in order to endeavour innovations and to create new partnerships, products and/or services.
